Chrysler / Jeep Radiator Application - Product Information

Date Issued: 07/2009

Blue Print's research has shown that the only way of identifying the correct radiator part number for several Chrysler & Jeep models is purely a visual check (for example: numbers off the original radiator or shroud/cowling). There are no chassis change points to aid identification of the correct radiator part number.

If you see **"REFER"** catalogued against a Chrysler or Jeep radiator then please obtain the following information:

- OE numbers / All markings stamped on vehicle radiator or shroud/cowling

Then please call the Blue Print information centre on **+44 (0)1622 833004** in order for us to confirm the correct part number for your application.

Disclaimer : Any technical tips are produced in good faith. Blue Print, always recommend that vehicle maintenance and diagnostics are only carried out by suitably experienced people using appropriate tools in a safe manner within a workshop environment. Blue Print, and their customers cannot be held responsible for the correctness of, or misinterpretation of the above technical tips.
