## Importance of Correct Identification

There are two designs of Water Pump available for the Renault vehicles listed above which are unable to be correctly identified using the vehicle details. The key difference separating BWP1752 and BWP2149 is the additional bolt hole on BWP2149.

**Please ensure you install the exact replacement. If an attempt is made to fit the incorrect water pump, it will not mate correctly and may cause coolant loss and possible damage to the housing.**
