

# Technical Bulletin

## TCK47: Ford Duratorq

The contents of this kit have been assembled as a “one kit fits all solution”. All parts must be fitted as a direct replacement (or upgrade for engines below 110BHP) for any Ford 4 cylinder Duratorq engine application which can be found in our Timing Chain Kit catalogue.

Note: You will have one extra guide rail after installation. This is due to there being two possible options, please refer to technical photo (left)
