Mitsubishi 4D56T 16V Engines

HG2101 uses latest OE modification.

Following OE modification, **FAI now offers the latest design** head gasket for Mitsubishi 4D56T 16V engines. The new design has a corrugated upper surface and smooth profile lower layer, **completely matching OE**. This gasket replaces all previous versions / designs. **Click the squares below for full vehicle application.**

HG2101 Front - Corrugated face

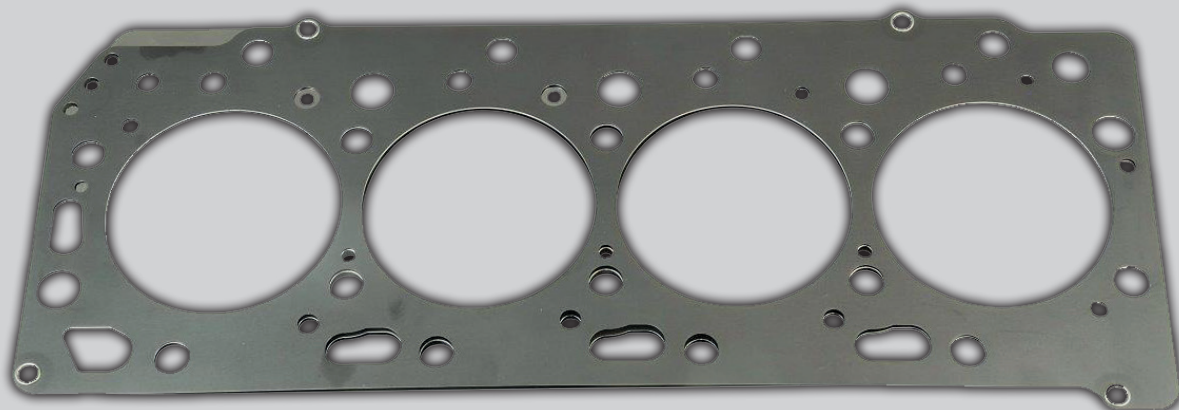

Head Bolts must be replaced - use B2101

Also available: BCH007, HS2101 and FS2101

HG2101 Back - Smooth face

Head Bolts must be replaced - use B2101

Also available: BCH007, HS2101 and FS2101

**Best Availability. Best Value.
Best Quality. Best Service.**
