Piston Options for YD25DDTi

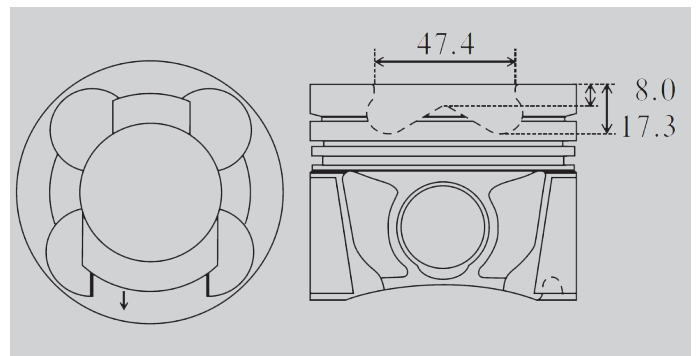

Keeping in-line with OE designs

There are 4 different piston options for the Nissan YD25DDTi. There does not appear to be any chassis break or clear year break information to identify best fit for a specific engine, but there is sufficient difference in piston dimensions to potentially cause damage if the incorrect part is fitted. The images below highlight the key dimensional differences and should make part identification simpler.

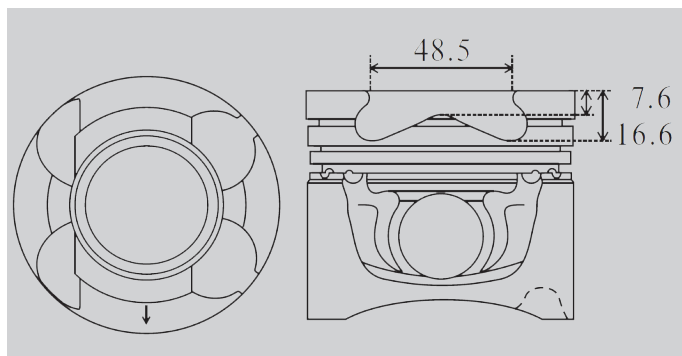

PK17-000
OE: A2010-EB30A

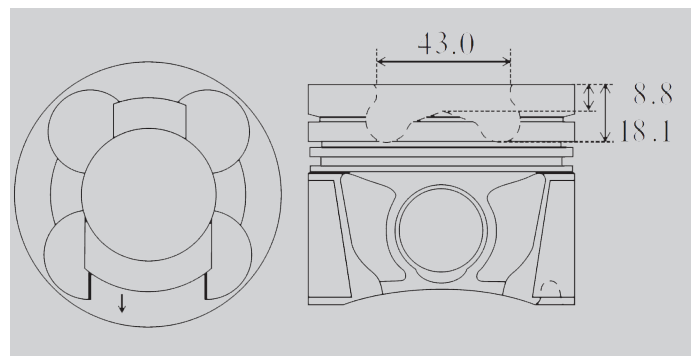

PK22-000
OE: A2010-EB70A

PK27-000
OE: A2010-5X00A

4568000
OE: A2010-VK50A

Best Availability. Best Value.
Best Quality. Best Service.
