# Revised wishbone bush - Opel / Vauxhall Corsa / Combo

SSTB 0007

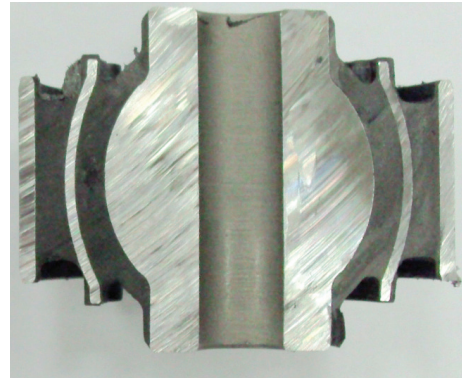

## FCA6026/7 & FCA7043/4 FSK6109 & FSK7646

Following on from changes made by the Vehicle Manufacturer, First Line has superseded wishbones FCA6026 and FCA6027 to FCA7043 and FCA7044 and the corresponding wishbone bush FSK6109 to FSK7646 respectively.

The vehicles affected by these supersessions are:  
Vauxhall / Opel - Corsa II / C (2000-), Corsa II / C Van (2000-),  
Combo Van (2001-), Tigra (2004-).

The Original Equipment specification of the rear wishbone bush has been upgraded with enhancements to its construction. The bush now has a swaged design to further improve its service life.

The swaged bush provides a greater bonding area for the rubber, which directly increases the overall longevity.

New version (swaged bush)

FCA6026/7

Original design

FCA7043/4

New improved design
