IMPELLOR SIZE VARIATIONS

There are 2 designs of Water Pump available for the vehicles listed above.

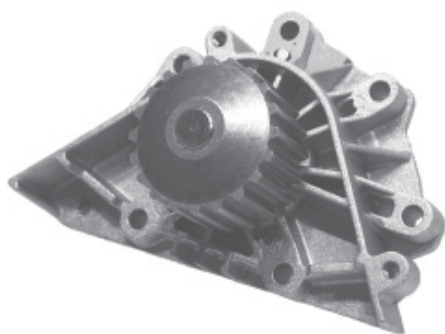

FWP1937 incorporates an impellor with a 61mm diameter.

Fitting this pump to applications which require a FWP2125 will cause the impellor to foul the backhousing.

FWP2125 incorporates an impellor with a 55mm diameter.

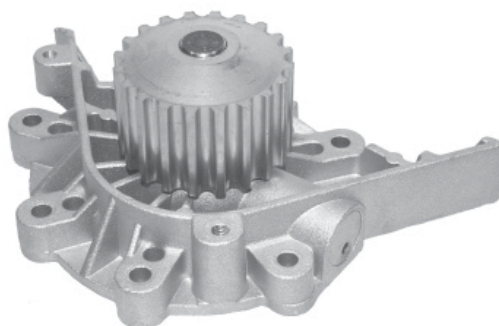

Fitting this pump to applications which require a FWP1937 could lead to overheating due to excessive clearance between the impellor and backhousing.

Please ensure you choose the correct Water Pump before replacement.

FWP1937

Pump with 61mm dia. Impellor

FWP2125

Pump with 55mm dia. Impellor
