

Steering and
Suspension

Ford Streetka

SSTB 0006

FCA6565 & FCA6566

It should be noted that different wishbones are fitted to streetka vehicles.

The correct wishbones for this application are **FCA6565** and **FCA6566**. A fitting kit is also available FSK6535

Do not attempt to fit FCA6002 and FCA6003.

Whilst the wishbones look similar to the naked eye, there are dimensional differences which will have a radical effect on the steering geometry of the vehicle and compromise both vehicle handling and tyre life.
