

## The alternative to OE!

Only available from febi!

## Green, mineral hydraulic fluid for Citroën hydraulic pneumatic chassis (type II)!

**febi number 24704 LHM (1 litre)**  
**Reference number 9979.A1**

With excellent low-temperature properties, this mineral based hydraulic fluid specifically fits the hydraulic pneumatic Citroen suspension. Of course, the fluid is approved febi OE quality.

Vehicles manufactured up to 1998 need the hydraulic fluid to be changed every 60 thousand kilometers, vehicles manufactured from 1998 onwards need the fluid to be changed every 120 thousand kilometers!

### The fluid fits the older as well as the newer vehicles:

- XM (90 - 00)
- BX (86 - 95)
- Xantia I + II (93 - 03)

Please note:

After replacing the suspension sphere, the hydraulic fluid must be topped up!

You can find more fluids in the febi range on our fluids flyer febi 90451!

Ask your febi partner for febi bilstein spare parts!  
All parts are also available on [www.febi.com](http://www.febi.com)
